Response to Amendment

The following is in response to the amendment filed on June 29, 2006.

Allowable Subject Matter

Claims 2-13 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims are allowed, because the prior art does not disclose or suggest straightening the curl of paper with a device comprising two guide units that each form a gap by two planes parallel to one another, wherein the device is arranged so that one of the guide units is upstream of the other in the feed direction of the paper, and wherein the paper is fed into the upstream unit bent opposite to the direction of curl, and also wherein the paper changes direction from the upstream to downstream guide unit opposite to the direction of curl.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed June 29, 2006 have been fully considered and are persuasive.

The rejections under 35 U.S.C. 102(b) over Kamada (US 5,300,012) and over JP 63-32862 U1 set forth previously have been withdrawn. It is recognized that neither reference teaches feeding the upstream guide unit with the paper bent opposite to the direction of curl.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

US 6,064,853, US 5,760,814, US 5,316,539, JP 08-133542, JP 09-171276, JP 04-032453, JP 03-067847, JP 02-209357, EP 1 391 408, all disclose various uncurling devices for paper.
